AHSAN EJAZ

Senior Android Developer

London, United Kingdom +44 7700 900 123 ames.mitchell@email.co.uk linkedin.com/in/ahsanejaz

PROFESSIONAL SUMMARY

Results-driven Senior Android Developer with 5+ years of commercial experience designing, building, and shipping high-quality mobile applications to the Google Play Store. Specialises in Kotlin, Jetpack Compose, and MVVM/Clean Architecture, with a strong track record of delivering scalable, maintainable codebases in Agile teams. Experienced collaborating with product managers, UX designers, and backend engineers to deliver end-to-end features. Passionate about performance optimisation, code quality, and keeping up with the rapidly evolving Android ecosystem.

CORE TECHNICAL SKILLS

Languages	Kotlin (primary), Java, XML, SQL
UI & Frameworks	Jetpack Compose, XML Layouts, Material Design 3, Navigation Component
Architecture	MVVM, MVI, Clean Architecture, Repository Pattern
Jetpack Libraries	ViewModel, LiveData, StateFlow, Room, DataStore, WorkManager, Hilt, Paging 3
Async & Reactive	Coroutines, Kotlin Flow, RxJava 2/3
Networking	Retrofit 2, OkHttp, GraphQL, REST APIs, JSON parsing
Testing	JUnit 4/5, Espresso, Mockito, MockK, Turbine, UI Automator
Tools & CI/CD	Android Studio, Git, GitHub Actions, Bitrise, Fastlane, Gradle
Cloud & Backend	Firebase (FCM, Crashlytics, Analytics, Auth, Firestore), AWS Amplify
Other	Agile / Scrum, JIRA, Confluence, Figma, Charles Proxy, LeakCanary

WORK EXPERIENCE

Senior Android Developer | FinTech Innovations Ltd
Mar 2022 – Present · London, UK (Hybrid)

- Lead Android developer on the company's flagship personal finance app, serving over 800,000 active users on the Google Play Store.
- Migrated legacy XML-based UI to Jetpack Compose, reducing UI-related bug count by 35% and cutting feature development time by 20%.
- Architected a clean MVVM + Repository layer backed by Room and Retrofit, enabling full offline-first functionality with background sync via WorkManager.
- Introduced Hilt for dependency injection across 60+ modules, improving testability and eliminating manual factory boilerplate.
- Drove unit test coverage from 22% to 74% using JUnit 5, MockK, and Turbine for Flow testing.
- Collaborated with iOS and backend teams to define and integrate RESTful APIs and push notification flows via Firebase Cloud Messaging.
- Mentored two junior Android developers through code reviews, pair programming, and knowledge-sharing sessions.

Android Developer | Retail Connect Solutions
Sep 2020 – Feb 2022 · Manchester, UK

- Built and maintained a B2B retail management Android app used by 200+ retail clients across the UK.
- Implemented a product catalogue with Paging 3 for infinite scrolling, reducing load time by 40% compared to the previous implementation.
- Integrated Razorpay and Stripe payment SDKs with PCI-DSS compliant flows, including 3DS2 authentication.
- Set up CI/CD pipeline using Bitrise and Fastlane, automating APK signing and Play Store deployment.

- Resolved critical ANR and memory leak issues using LeakCanary and Android Profiler, improving app stability rating from 98.1% to 99.4%.
- Worked in a two-week Scrum sprint cadence, participating in planning, retrospectives, and daily stand-ups.

Android Developer | **BlueSky Apps Ltd** *Jun 2019 – Aug 2020 · Leeds, UK*

- Developed a health and fitness tracking app from MVP to a 50,000-download Play Store release within 12 months.
- Integrated Google Fit API and Bluetooth LE for real-time wearable device data sync.
- Implemented dynamic theming and dark mode support using Material Design 2 theming system.
- Wrote comprehensive Espresso UI tests covering critical user journeys, integrated into the GitHub Actions CI pipeline.

Junior Android Developer | **CodeBase Agency** *Aug 2018 – May 2019 · Leeds, UK*

- Assisted in building 4 client-facing Android applications across sectors including e-commerce and hospitality.
- Maintained and refactored a legacy Java codebase, converting key modules to Kotlin and adding unit tests with JUnit 4.
- Resolved Play Store review rejections related to targetSdkVersion compliance and privacy policy requirements.

EDUCATION

BSc (Hons) Computer Science *Sep 2014 – Jun 2018*

University of Leeds · Leeds, UK · **First Class Honours (1:1)**

- Dissertation: 'Optimising Battery Consumption in Background-Intensive Android Applications' — awarded 82%
- Relevant modules: Mobile Computing, Software Engineering, Data Structures & Algorithms, Distributed Systems

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

- Associate Android Developer (AAD) – Google, 2021
- Kotlin for Android Developers – Udacity / Google, 2020
- Firebase in a Weekend (Android) – Google, 2020
- Jetpack Compose for Android Developers – Google Codelabs, 2022
- AWS Certified Cloud Practitioner – Amazon Web Services, 2023

NOTABLE PROJECTS

FinTrack Pro – Personal Finance & Budgeting App

- Offline-first budgeting app with biometric authentication, custom chart visualisations, and CSV export. Kotlin, Compose, Room, Hilt, Coroutines. 4.7★on Play Store.

FitPulse – Fitness & Wearable Tracking App

- Fitness tracking app integrating Health Connect API and BLE wearables. Animated Compose UI with real-time heart-rate graphs. 50,000+ downloads.
